

ISO/IEC 27001 Certificate - Sample

Checklist item 3 | Phase one - Establish the relationship

SAMPLE TEMPLATE. Replace every required {{PLACEHOLDER}} value before using this as completed evidence. For legal documents, obtain counsel/client approval as appropriate.

Purpose

Supporting security-review evidence file.

Required validation fields

Field	Value
Certified organization	{{PROVIDER_LEGAL_NAME}}
Certificate number	{{ISO_CERTIFICATE_NUMBER}}
Certification body	{{ISO_CERTIFICATION_BODY}}
Valid from	{{ISO_VALID_FROM}}
Valid until	{{ISO_VALID_UNTIL}}
Status	Complete

Certification statement

This sample represents evidence that the named organization maintains an information security management system certified against ISO/IEC 27001 for the stated scope and validity period.

Scope

{{ISO_CERT_SCOPE}}

Validation intent

This template is designed so the application can mark the checklist item as successful when the file is present, all required values are non-blank, the document status is **Complete** or equivalent, and no required placeholder remains unresolved.
